PROFILE

Highly motivated and detail-oriented Civil Engineer with five years of hands-on experience in construction management, site supervision, and project execution. Adept at overseeing large-scale infrastructure projects, ensuring strict adherence to safety and quality standards, and effectively coordinating multidisciplinary teams. Proficient in using industry-standard tools such as AutoCAD, Primavera, and MS Project to streamline project workflows. Passionate about delivering innovative and cost-effective engineering solutions that enhance structural integrity and project efficiency.

EDUCATION

Nahda University

Beni Suef, EG

Bachelor of Engineering (Civil Engineering) - GPA: 2.71 (Good)

Mar 2021

Graduation Project: Project Management - Grade: Excellent

EXPERIENCE

Senior Site Engineer

2025 - 2026

Ras El Hekma Sales Resort, EG

- I worked on this project in the finishing department
- I worked on this project in the infrared department.

Site Engineer

2023 - 2025

H8 VIP Project in Marassi North Coast

Orascom Construction Company, Marassi North Coast

- Supervised all phases of the project from inception to completion, ensuring compliance with design and safety regulations.
- Coordinated with project managers, contractors, and suppliers to ensure smooth workflow and timely material procurement.
- Managed the installation of steel structures and finishing works, ensuring high-quality execution and adherence to project specifications.
- Conducted site inspections, prepared progress reports, and addressed any structural or technical issues.
- Ensured compliance with health, safety, and environmental (HSE) standards on-site..

Site Engineer

2022 - 2023

Ring Road , Internal Roads, Sharm El Sheikh

Orascom Roads Company, Sharm El Sheikh

- Managed the execution of the road construction, ensuring adherence to specifications, timelines, and budget constraints.
- Conducted geotechnical analysis and soil testing to ensure stable foundation conditions.
- Monitored contractor performance and coordinated inspections to guarantee high-quality workmanship.
- Reviewed engineering drawings and provided technical guidance to the construction team.
- Liaised with government authorities and stakeholders to ensure project compliance with regulations.

Site Engineer

2021 - 2022

St. George International School, Beni Suef

Michel Malak Hanna Office, Beni Suef

Underground Sports Facility (Swimming Pools, Gym, Sports Courts)

The Heavenly Church, Beni Suef

- Led site operations for various structural and finishing works, ensuring high standards of quality.
- Managed materials procurement, scheduling, and labor coordination for timely project completion.
- Conducted structural analysis and inspections to ensure durability and stability.
- Assisted in project budgeting, cost estimation, and resource allocation.
- Prepared daily and weekly progress reports for senior management.

Finishing Engineer(Site Engineer)*Red Sea Company, Administrative Capital – Ministries District*

Finishing Works in the Ministries District, Administrative Capital

- Supervised interior and exterior finishing activities, ensuring high-quality craftsmanship and material compliance.
- Coordinated with design teams and contractors to implement finishing details as per project specifications.
- Managed quality control processes, addressing defects and ensuring project handover met client expectations.
- Conducted on-site safety inspections and enforced adherence to health and safety regulations.

COURSES**ICDL (International Computer Driving License)****AutoCAD****Revit****Primavera**

TECHNICAL SKILLS

- **Structural Analysis and Design**
- **Reinforced Concrete and Steel Structures**
- **Quantity Surveying and Cost Estimation**
- **Construction Planning and Scheduling (Primavera, MS Project)**
- **AutoCAD and Revit for Drafting and 3D Modeling**
- **Soil Mechanics and Foundation Engineering**
- **Hydraulics and Water Resource Management**
- **Road and Highway Design and Construction**
- **Health, Safety, and Environmental (HSE) Compliance**
- **Building Information Modeling (BIM)**
- **Site Inspection and Quality Control**
- **Material Selection and Procurement**

PERSONAL SKILLS**Languages:** Arabic (Native Speaker) — English (Very Good)**Personal Skills:** Communication Skills, Leadership, Time Management, Problem-Solving, Adaptability, Teamwork
